

SELF-DECLARED ENVIRONMENTAL CLAIMS

Manufacturer	ARCAPROFIL S.p.A.
Registered office	Via Durini , 24 – 20122 Milano
Headquarters Production Plant and Offices	Via Bedesco , 22 – 24033 Calusco D'Adda – Bergamo
Product	GreenWall PVC Sheet piles

At least 85%

ARCAPROFIL S.p.A. transforms and produces PVC profiles called “GREENWALL PVC SHEET PILE – PVC sheet piles“, the environmental characteristics of the Product according to point 7 of UNI EN ISO 14021:2021 are indicated with the symbol “✓”

SELF-DECLARED ENVIRONMENTAL CLAIMS UNI EN ISO 14021:2021	
Compostable	
Degradable	
Designed for disassembly	
Product with extended life span	
Energy recovered	
Recyclable	✓
Recycled content	✓
Low energy consumption	
Reduced Resource Usage	
Reduced water consumption	
Reusable and refillable	
Waste reduction	

Recycled content	≥ 85%
- Of which Pre-consumer	n.p.d.
- Of which Post-consumer	n.p.d.

Additional criteria Significant of sustainability	Source of resources Energy used for the production of the product 5% from renewable sources (photovoltaic plant)
--	---

Recycled material content :

The recycled content is calculated in accordance with the international standard UNI EN ISO 14021:2021

Pre-Consumer Materials:

Material subtracted from the waste stream during a manufacturing process. The reuse of reworked, regrinded material or residues generated in a process and capable of being recovered in the same process that generated them is excluded.

Post-Consumer Materials:

Material generated by domestic establishments or commercial , industrial or institutional installations in their role as end users of the product , which can no longer be used for its intended purpose . This includes the return of material from the supply chain.
